Office Action Summary	Application No. 10/790,431	Applicant(s) POTAK, ROBERT L.	
	Examiner Thomas A. Beach	Art Unit 3671	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Information Disclosure Statement

1. The information disclosure statement filed 06/28/04 fails to comply with 37 CFR 1.98(a)(1), which requires the following: (1) a list of all patents, publications, applications, or other information submitted for consideration by the Office; (2) U.S. patents and U.S. patent application publications listed in a section separately from citations of other documents; (3) the application number of the application in which the information disclosure statement is being submitted on each page of the list; (4) a column that provides a blank space next to each document to be considered, for the examiner's initials; and (5) a heading that clearly indicates that the list is an information disclosure statement. The information disclosure statement has been placed in the application file, but the information referred to therein has not been considered.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 21-22 are rejected under 35 U.S.C. 102(b) as being anticipated by Doherty 5,904,296. Doherty shows a snowplow, in figures 11-12, having a frame; a snowplow blade fixedly attached to the frame; at least a first actuator 247 operatively

connected to the snowplow blade for use in maneuvering the snowplow blade, control electronics (figure 10) operatively connected to engage the at least a first actuator; and, wherein the control electronics are preprogrammed to automatically cycle the snowplow through a sequence of operations (col. 14, lines 4-68, col. 15, lines 1-61).

As concerns claim 23, shows the at least a first actuator operatively connected to the snowplow blade for use in maneuvering the snowplow blade is a first hydraulic 247 actuator operatively connected between the frame and a first portion of the snowplow blade; and a second hydraulic actuator 247 operatively connected between the frame and a second portion of the snowplow blade; wherein the control electronics (figure 10) are operatively connected to selectively independently engage the first and second hydraulic actuators (col. 14, lines 4-68, col. 15, lines 1-61).

Allowable Subject Matter

4. Claims 24-31 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
